

AVIDO Water Dispenser

Avido water purifiers are sleek in design and compact in size, making it easy to fit in your home or business without taking up too much space, while providing you and your family with the best quality water. Moreover, by switching to Avido Water Purifiers you will be helping protect the environment by reducing the use of plastic water bottles.

AVIDO Water Purifiers purify your water by removing 99% of any impurities that can be found in typical tap water. Powered by cutting edge Filtration System, AVIDO Water Purifiers are fitted with two filters

- **Filter 1:** The Micro-Antioxidants Filter Plus Sediment & Carbon Block Composite Filter which reduces sediment particles and absorbs some of the harmful organic chemicals such as chlorine, bad taste and odor.
- **Filter 2:** Nano-FACT® Filter which also uses Activated Carbon Powder. The Nano-FACT® Filter removes water contaminants such as waterborne micro-organisms and bacteria, virus by Cellulose Nano fiber. The Ultrafiltration membrane filtration (UF) is a low pressure membrane process for water treatment that is designed to remove turbidity causing particles including those comprised of suspended solids, bacteria, colloidal matter and proteins.

General Information	PT-1388 UF Purifier-I
Heating and Cooling Technology	Tank Heating & Cooling
Color option	White ,Black
Voltage	(220-240V 、 50Hz)/ (115V 、 60Hz)
Power	Total 590W Heating:500W Cooling:90W
Tank capacity	2.5L (1.5L cold tank ; 1.0L hot tank)
Purification System	1st :PAC- (Sediment + Pre-Carbon Fiber) 2nd:UF Membrane /Alkaline (UF Membrane 0.1m+Carbon)/ Option for Alkaline Filter
Cooling Performance	≥3L/H ≤10°C
Heating Performance	5L/H ≥85°C
Machine Net Size (D*H*W)mm	447(D) * 392 (H) * 185(W)
Package Size(D*H*W)mm	447(D) * 419 (H) * 212(W)
Machine N.W (KGS)	13.5

The system and the filters are certified by NSF/ANSI 42
Composite cartridge suitable for treatment of drinking water in compliance with Directive 98/83/EC
