DIRECT RO SYSTEM

SILVER

Highest efficiency

Modern design

Protects from scale deposition

Constant water pressure

Commercially available on the market

Simple and quick replacement of cartridges

Removes more than 98% of all contaminants from water, including bacteria and viruses

Better taste and smell of water

Optimal filtration mechanical and conditioning

BPA free

Also available with a mineralizer function

DIRECT RO SYSTEM

SILVER

Symbol	Ro Silver
Type	3-stage water treatment system RO
Filtered water flow	2 l/min
Water flow after	1,5 l/min
Ro membrane	600 GPD
I stage of filtration	Spun cartridge
II stage of filtration	Carbon block B10
RO dimension (HXWXL)	14,5cm / 46 cm / 37,5 cm
Working pressure	1-4 bar
Working temp.	4-40° C
Power supply	24/240 V
Power consumption	70 W
Connection	1/2" x 3/8"
